Forecast for Saturday 03 Jul 2021

Weather: Cloudy through the morning, with outbreaks of showery rain, locally heavy and perhaps thundery. Rain turning lighter but prolonged, with extensive low cloud spreading across the park, only breaking for a time late afternoon. Little change in the evening.

Chance of cloud free mountain/hill tops above 800m: 80% becoming <10% by noon.

Visibility: Mediocre or poor initially in heavy rain, with neighbouring hills becoming difficult to distingish. Becoming very poor by noon, with extensive cloud down to 300m, particularly for western and southern slopes.

Meteorologist's View

Heavy rain will make paths and slopes slippery, thus extra care should be taken when out walking and waterproofs should be worn.

Forecast for Sunday 04 Jul 2021

Weather: Remaining cloudy through Sunday morning. Showers developing over the course of the day, with the potential for these to be heavy and thundery. A few brighter spells may develop in between the showers in the afternoon, before the showers ease off again into the evening and night.

Maximum wind: Winds on the summits southerly 15 mph, occasionally gusting 25 mph.

Chance of cloud free mountain/hill tops above 800m: 40% through the morning, rising to 80% in the afternoon.

Visibility: Scattered cloud bases of 300-400m during the morning, bringing poor visibility. Cloud bases lifting to predominantly above the summits through the afternoon, but visibility temporarily still poor in any showers that pass over.

Temperature: **Valleys:** Plus 13 becoming plus 18 Celsius.
At 800m: Plus 9 becoming plus 12 Celsius.
Freezing level: Above the summits all day.
